Professional Training & Certifications

Basic Computing and Digital Skills *August 2019*
DoICT, ICT Division, Government of Bangladesh.
Completed training on Basic Computing, Web-based Outsourcing Platforms, Graphics Design, Digital Marketing, and Social Media Marketing.

Web Design (4-Month Course) *April 2019*
Institute of Information Technology (IIT), NSTU.
Four-month intensive course covering HTML, CSS, and front-end web design principles.

Professional Outsourcing Training *June 2020*
Learning and Earning Development Project (LEDP), ICT Division, Government of Bangladesh.
Government-certified program focused on freelancing, and outsourcing skills development.

Koha and DSpace Training Program *August 2025*
Librarian Voice.
Hands-on training on Koha (Library Automation System) and DSpace (Institutional Repository Software) for digital library management.

Internship and Work Experience

Assistant Library Officer **14 Oct. 2026 – Present**
North South University, Dhaka, Bangladesh

- *Job Responsibilities:* Providing circulation and user support services at the library desk, with responsibilities including the operation of RFID-based circulation and library access control systems. Maintaining accurate technical documentation, operational records, and system-related reports to support efficient library operations.

Internship **06 Feb. 2023 – 28 Feb. 2023**
Dhaka University Library, Dhaka, Bangladesh

- *Main objectives and learning:* I developed practical skills in academic library management, including cataloging, classification, and digital library services. I observed how the library supports students and researchers through its vast collection, reference services, and automated systems. I also learned about user service policies, library automation tools, and digital resource management, enhancing my understanding of modern library operations.

Internship **09 Mar. 2022 – 31 Mar. 2022**
Bangladesh National Scientific and Technical Documentation Center (BANSDOC), Dhaka, Bangladesh

- *Main objectives and learning:* I gained hands-on experience in providing research support services to scholars and scientists. I learned about bibliographic databases, digital repositories, and how BANSDOC facilitates access to scientific and technical information through document delivery and reference services.

Professional Affiliations

Member, Association for Information Science and Technology (ASIS&T) **Mar. 2025 – Present**
